Parasight System Inc. Launches Complete Lab Solution to Revolutionize Veterinary Diagnostics

Lexington, KY – March 18, 2025 – Parasight System Inc., a leader in veterinary diagnostic technology, is excited to unveil its **Complete Lab Solution**, a game-changing advancement designed to streamline diagnostics and improve patient care for veterinary practices of all sizes.

Expanding its diagnostic capabilities, Parasight now offers over **150 in-clinic tests**, covering blood chemistry, hematology, urine, and fecal analysis—empowering veterinarians with fast, accurate, and comprehensive diagnostics at the point of care.

Transforming Veterinary Diagnostics with Cutting-Edge Technology

The **Complete Lab Solution** integrates Parasight's innovative **SightAI™ All-in-One Analyzer**, the **InSight® V-Chem blood chemistry analyzer**, and the **InSight® V5R hematology analyzer** into a fully automated system. This new offering is designed to:

- **Increase Efficiency:** Deliver rapid, lab-quality results in minutes, reducing wait times and enhancing clinical decision-making.
- **Enhance Accuracy:** Utilize advanced AI-powered diagnostics and precision analyzers to improve test reliability across multiple species.
- **Streamline Workflows:** Seamlessly integrate into existing veterinary practice management systems with **automated inventory control** and effortless data management.
- **Adapt to Any Practice:** Whether a single-location clinic or a multi-site hospital, the solution scales to meet diverse veterinary needs.
- **Reduce Maintenance:** Designed for ease of use, the system requires minimal upkeep, lowering operational costs for veterinary professionals.

“Parasight System Inc. is committed to providing veterinary professionals with the most advanced and efficient diagnostic tools available,” said Eric Hauck, CEO of Parasight System Inc. “With our Complete Lab Solution, we’re transforming veterinary diagnostics by making high-quality, reliable testing more accessible and efficient—ultimately improving patient outcomes and practice productivity.”

Availability

The **Complete Lab Solution** is now available to veterinary practices across North

America through **Midwest Veterinary Supply** or directly via Parasight System Inc.'s website: **www.parasightsystem.com**.
