Parasight System and B&L Reference Laboratory Partner to Give IAHA Members a **Complete Diagnostic Portfolio**

In-clinic speed meets reference-lab depth: IAHA's exclusive diagnostic partners join forces so independent hospitals can run tests in-house or send them out through one coordinated relationship.

LEXINGTON, Ky., Oct. 26, 2026 – Parasight System Inc, the Exclusive In-Clinic Diagnostic Partner of the Independent Animal Hospital Association (IAHA), today announced a partnership with B&L Reference Laboratory, IAHA's Exclusive Lab Partner. Together, the two companies give IAHA's more than 850 member practices across 44 states access to a complete diagnostic portfolio, from routine in-clinic panels to specialty send-out testing.

The partnership pairs Parasight's Complete Lab System, which delivers most results in under 10 minutes during the visit, with B&L's specialty send-out menu. Veterinarians can decide case by case whether to run a test in-house or send it out, based on urgency, volume and staffing.

IN-CLINIC

Parasight Complete Lab System

Answers in minutes, during the visit.

SightAI™ All-in-One · Parasite detection

InSight® V5R · Hematology

InSight® V-CHEM · Chemistry

InSight V-IA® Plus · Immunoassay

InSight® Urinalysis · Urinalysis

InSight® Equine-IA · Equine immunoassay

SEND-OUT

B&L Reference Laboratory

Specialty testing, without the extra steps.

Microbiology & Culture · aerobic, anaerobic, urine culture & MIC, fungal ID

Histopathology & Cytology · read by board-certified specialists

Advanced Endocrinology · FT4 by dialysis, aldosterone, AMH, TLI, B12 & folate

Coagulation · PT, aPTT, fibrinogen, AT III, vWF

Therapeutic Drug Monitoring · phenobarbital, bromide, cyclosporine, zonisamide

Infectious Disease · Coccidioides, Cryptococcus, Brucella, FIV by IFA

B&L also offers wellness and customizable panels for cases where in-house testing isn't the right fit. Both platforms integrate with leading practice management systems, so in-clinic and send-out results land where the team already works. Members also gain 24-hour specialist consults from B&L and Parasight's US-based support.

"Independent practitioners shouldn't have to choose between fast answers and a deep test menu. Partnering with B&L lets IAHA members handle the routine work in minutes, in-house, and send out everything else without adding steps for their team."

— Eric Hauck, CEO, Parasight System

"Our members are looking for solutions that help them deliver excellent medicine while running sustainable practices. Having our in-clinic and reference lab partners work together gives independent hospitals the full diagnostic picture."

— Brent Dunbar, President, Independent Animal Hospital Association

AVAILABILITY

The combined offering is available now to IAHA member hospitals. Practices already using Parasight can ask their Parasight representative about adding B&L send-out testing. Practices interested in either service can contact Parasight at 833-233-7278 or parasightsystem.com, or B&L Reference Laboratory at 949-850-8515 or bandllabs.com.

ABOUT PARASIGHT SYSTEM INC
